

Braimah Destiny(Brad) - Frontend Engineer

worksbybrad@gmail.com | [Github](#) | [LinkedIn](#)

SUMMARY

Results-driven Engineer with over 3 years of experience building scalable, user-centric web applications across fintech, social commerce, and SaaS platforms. Proven track record of driving product innovation and engineering excellence. Expert in React, TypeScript, and modern frontend ecosystems, with a strong commitment to code quality, performance, and user experience. Known for strategic thinking, problem-solving, and a growth-oriented mindset.

EXPERIENCE

Fend Group(formerly Digicask)

July 2024 – May 2026

Software Engineer

Remote - England, UK

- Built and maintained infrastructure for a blockchain DEX processing **\$100M+ in on-chain volume**
- Helped scale platform from hundreds to **6,000+ active users** through referral systems, leaderboards, and tracking data(analytics)
- Developed a launchpad with features including token creation, staking, airdrops, and locking mechanisms
- Built an on-chain bridge on Educhain that helped bring in new users and over **1M+ EDU into the chain**
- Built internal tools, including SDKs, bridging infrastructure, and crypto faucets, to improve onboarding, usage, and retention
- Designed on-chain analytics pipelines to improve transparency and transaction tracking
- Contributed to the EdTech platform with on-chain rewards for students
- Contributed to cross-platform mobile and web experiences using React Native and TypeScript for blockchain and fintech products

Soft-web Digital

June 2023 – June 2024

Frontend Engineer

Remote - Lagos, Nigeria

- Led development of a multi-currency e-Commerce platform with analytics dashboards and role-based access
- Built systems handling location-based pricing, user tracking, and performance optimisation
- Improved application performance, boosting SEO and user engagement
- Contributed to the airline booking platform and the admin dashboard
- Developed fintech solutions, including bill payments, trading platforms, and crypto integrations
- Collaborated cross-functionally with design and backend teams to deliver scalable UI systems

Enterscale

April 2023 – May 2023

Frontend Engineer

Remote(Contract) - Lagos, Nigeria

- Built MVP for a team and project management platform
- Integrated frontend with backend APIs for optimised performance
- Worked closely with the design team to improve UI/UX and usability
